and NSD File No. L-00-72.

Dear FCC:

Okay, why are you attacking this type of phone service? I, have this phone for only one reason in case of EMERGENCIES I use this. I don't use this to chat for no reason so if you want money go after the ones who like it for chatting and trust me there are many people I see and hear using them for stupid reason so go get them leave Trackfone out of it for people that like the low cost with out having the high price of a monthly fees!

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Erin Buhl
